My Entities

An entity is the individual, business, organization or institution with whom you have interacted and need to declare your activities.

- Classify the category of entity as: *For-Profit, Non-Profit or Gift Source*
- Classify the type of entity: Options will adjust based on category selected
- Classify the industry of entity

NOTE: the entities you have interacted with in the past will be available to you. Check the "Active" button if you have disclosures to make. Leaving it "Inactive" will leave the entity unavailable for disclosure reporting.

My Disclosures

A disclosure is the record of your activity with an outside Entity. Information collected about these interactions includes the time you devote to it (the Duration field) in order to assess your level of commitment.

Complete the following:

- The disclosure type: (*Compensation, Travel Only, Equity, Fiduciary Role, Intellectual Property, Royalties, Gift or Other*).
