Background

An entity is an individual, business, institution or organization that you interact with and with whom you have external activities to disclose. Before navigating to the disclosure page, you must have at least 1 Entity within your Entity List and it must be **active**. If you would like to use an Entity from last year, the Actions column contains options to edit, or to simply view your entity. If you need to add a new entity, click the Add New button, and begin to complete the Add Entity Details page.
